STOCK MARKET DULL

Rumors that Proved Untrue-Local Grain Market More Active.

At New York yesterday money on call was easy at 11/202 per cent, the last loan being made at 11/2, closing offered at 11/2. Prime mercantile paper 6@9 per cent.

Sterling exchange steady, with actual business in bankers' bills at \$4.85@4.8514 for demand and \$4.83@4.83% for sixty-day bills; posted rates, \$4.84@4.86. Commercial bills, Silver certificates, 74c. Bar silver closed

at 73c per ounce; at London, 33 11-16d. The total sales of stock yesterday were 163,400 shares. A rumor purporting to have emanated from London to the effect that the Atchison, Topeka & Santa Fe Railroad Company had met with failure in the negotlations looking to the extension of the guaranteed fund notes broke the stock of that corporation % per cent. at the opening, and, being followed by hints of a probable receivership, caused a further decline of % per cent., some very large blocks of the stock being thrown on the market. A denial of both stories and a statement of the financial condition of the company by President Reinhart stemmed the tide of offerings and induced some buying back of the shares parted with, the final sales being at a recovery of % per cent. The general market at the opening was irregular but in the main lower. During the afternon the market lapsed into duliness, and the dealings were few and irregular, very little being done outside of Chicago, Burlington & Quincy, Atchison and St. Paul. The close was fairly firm, prices being pretty evenly divided on each side of the market. Compared with the final sales of Saturday, the

principal changes were Advances-Cleveland & Pittsburg, 2; Whisky, 1%; Cotton Oil, 1½; Reading, 1%; Chicago Gas 11/8; Tennessee Coal and Iron, % and New York & New England, St. Paul & Omaha, General Electric, Delaware, Lackawanna & Western, Chicago, Burlington & Quincy, Canada Southern and C., C., C. & St. L, & per cent.

C. & St. L, % per cent.

Declines—Denver & Rio Grande preferred and Hocking Valley, 1%; Green Bay seconds, subscription paid trust receipts, 1½; Sugar preferred, Louisville & New Albany trust receipts and Laclede Gas, 1¼, and Nashville & Chatanooga, C., C., C. & St. L. preferred, and Colorado Fuel and Iron, 1

The railway and miscellaneous bond market was in the main weak. Among the declines were 1½ in Rock Island debentures and Hocking Valley fives, and 1 per cent. in Chicago & Eastern Illinois fives, Louisville & New Albany consols and Wabash seconds. Government bonds were steady. State bonds dull. Closing quotations were:

LOCAL GRAIN AND PRODUCE. Trade Fairly Active, with Fruits and Vegetables Weaker.

On the wholesale streets, yesterday, there was more activity than last week. The traveling salesmen on Saturday evening brought in very fair orders, and a number of buyers came in on the Monday morning trains. With the dry goods and millinery houses the most activity was noticeable. Grocers, however, are doing a good business, with all staple articles ruling very steady. Poultry is weak at quotations, and eggs go off 1 cent. Butter is in better supply. Irish potatoes are coming in freely, and yesterday were selling at 70 to 75 cents per bushel, 10 cents cheaper than a week ago. Jersey sweets are selling at \$3 per barrel, lower than ever before on this market. The peach glut of last week is over, and yesterday none was on the market, except California peaches, which are tasteless. Onions are 25 cents per barrel lower. Provisions are still downward in tendency of prices, and weak at the revised quotations

of yesterday. The local grain market showed some life. and the attendance on 'Change was better.

Wheat went off 1/2c, corn was steady at Saturday's range of prices, and oats advanced 1/2c. Track bids ruled as follows:

BEARS PUT TO FLIGHT

Chicago Wheat Market Captured by Bulls Towards the Close.

Prices Went Off 3-4c to 1c at the Opening, but Rallied and Advanced 7-8c to 1 1-4c-Corn Higher.

CHICAGO, Oct. 16 .- A complete change of feeling in the wheat pit late in the session was the feature of trade to-day. Dispatches reported thirty boatloads worked for export at New York. The absence of anything like liquidation after an early extraordinary rush of selling caused the shorts to become good buyers. A great lot of wheat was recovered. It was a bull market the last hour and the final quotations were 1/40 4c over Saturday's close. Corn was well bought at somewhat lower prices at the start and closed with a net gain of %c. Provisions are about unchanged.

Wheat, at the opening, was weak, and prices %@1c lower, advanced about %c above opening figures, then ruled easy again and prices declined %c, fluctuated some and then advanced 14@1%c, held quite steady, and the closing was 1/8c higher for December and 1/4c higher for May than the closing figures of Saturday. For a while the feeling was very unsettled. It was claimed that about five million bushels of long wheat was closed out. The trade started in with a panicky feeling on weak and lower cables, prospect of an increased visible supply of wheat and the very heavy Northwestern arrivals. On the curb, previous to the opening this morning, Pardridge lent his influence to depress prices, and he was a liberal seller at the opening of the regular market. The heavy long line of wheat held for Wall street seems to have been principally in the mind's eye of some people, but Schwartz, Dupee & Co., Baldwin, Farnum, Milmine, Bodman & Co., Norton-Worthington, F. J. Logan & Co., and other prominent houses with close New York connections, were good buyers. In addition came the announcement that Chicago stocks decreased nearly 300,000 for the week. The lakes came in with a decrease of 629,000 bushels. Eight primary wheat points had 1,010,000 bushels for the day, but this was light compared with 1,871,000 bushels on the same day a year ago. When the visible stocks were all in, the increase was under 2,000,000 instead of the predicted 3,000,-000 and but little more than half the 3,834,-

000 increase a year ago. Corn at first was rather easy in sympathy with the weakness in other markets, and prices ruled 3/9 1/2c lower. At the decline there was quite a good general demand, a portion of which was credited to the short interest in the Southwest. This, in conjunction with the small increase in the visible, imparted a little more strength, and prices during the latter part of the session gradually advanced 36012c and the appreciation was fairly well supported to

The oats market was held up principally by the firmness of corn and was fairly active. Holders did not seem anxious to sell and shorts were covering to some extent. Prices had ½c range and closed ½0 ½c higher than Saturday.

Provisions were dull. Prices fell off a little as a result of the slump in wheat, but reacted later, following the rally in that

Freights were dull, with a fair offering of vessel room at 2c for wheat and 1%c for corn to Buffalo. The estimated receipts for to-morrow are: Wheat, 300 cars; corn, 1,050 cars; oats, 480 cars; hogs, 14,000 head. The leading futures ranged as follows:

Proper Medicine for a Challenger. Springfield Republican.

One hot-blooded would-be duelist in Virgints has been treated to a dose of wholesome but unpalatable medicine by being turned over to the police by the man to whom he sent the challenge. This cocky youngster, who is the son of the collector of custems at Richmond, felt aggrieved at some editorial comments which the Richmond Times made on a speech of his before the Democratic city committee. Joseph Bryan is the proprietor of the Times, a man of wealth and standing, a prominent churchman and a successful man of affairs. When young Wallace complained of the sharpness of the strictures of the Times upon him, Bryan referred the mat-ter to a friend of both parties, a judge, to determine if the Times owed Wallace an apology. Judge Christian said no, and Bryan dropped the matter there, but not so the pugnacious youngster, who sent Bryan a challenge. Bryan's response was a sensible note declining the challenge because dueling is unchristian, illegal and a barbarous method of settling disputes, and a turning over of the challenge to the chief of police, who thereupon arrested Wallace,

The Quality of Eggs.

Philadelphia Press. Has it occurred to any of our poultrykeeping friends that there are such things as gilt-edged eggs? It is a fact that some men are able to get 5 cents or more above the market price for their eggs right along. The way that they do it is by having, first, the right kind of eggs, and, second, by putting them on the market in the right way. The best buyers prefer a pure white shell, such as those of the Black Spanish. Then the eggs must be absoluteclean, and put up in small, neat packages. Every package must have the name of the producer and the date at which it was put up, and contain a guaranty that the eggs are fresh. Put a few packages of this sort on the market, and you will soon find that there are people who appreciate your efforts, and, what is more, they are willing to pay for such carefulness.

It is well to remember, for use in cases of illness where the burning thirst of the patient cannot be assuaged by cracked ice sugar—Raw steady and unchanged; fair results of the stronger; native steers, \$3.4065.10; Texans will afford prompt and comparatively long

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people nitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this endit will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs given are especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until ithas a representative in nearly every town in the State Special traveling correspondents will visit the news centers of the State at trequent intervals, thus insuring the "write up" of every important event

or matter of general interest. Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

portation. The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to every hing having

a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by preju dice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertain ment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offer the news of the week in condensed shape and a variety of miscellany, agricultural and housshold literature that render it one of the best invest. ments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents.
